CDMDC MUSEUM EXHIBITION—January to March 2020

The club exhibition at Chippenham Museum is underway, with a number of displays across a broad range of time zones from Bronze Age right up to modern times. Club members will be at the museum every Saturday to talk through the artefacts with visitors and promote the hobby. There is also a children's activity area where they can use a hand-held metal detector to search for and keep whatever old coins they may find. Everyone is welcome. Tell your friends and family.
